

5th International EWI/TWI Seminar on Joining Aerospace Materials

SAVE THE DATE

September 20-21, 2010
GE Aviation
Cincinnati, Ohio
United States

Mark your calendar now, and plan to join us in Cincinnati in 2010!

ABOUT THE SEMINAR

This biennial event, organized by EWI and TWI, is attended by leading technologists and engineers involved in state-of-the-art aerospace manufacturing and assembly of aircraft structures. The upcoming event will be sponsored by and hosted at **GE Aviation**.

Topics will focus on improved or recently developed technologies for welding and joining for a variety of materials (aluminum, titanium, nickel-based alloys, composites). Manufacturing and repair needs will also be addressed.

WHO SHOULD ATTEND

This program will build on the strength of past events and features information relevant to engineers involved in design, technical specification, manufacturing, quality, and those responsible for introducing new technology.

OFFICIAL HOTEL

Embassy Suites of Cincinnati Northeast
4554 Lake Forest Drive
Blue Ash, Ohio 45242

Phone 513.733.8900
